Crystal glass

Crystal glass differs from conventional glass by its particularly high transparency and brilliance. Depending on the cut, light rays are refracted thousands of times in the glass, so that crystal glass shimmers and sparkles beautifully. With their appealing appearance and fine mouth rim, stemware made of crystal glass is also perfect for tasting.

Outdoor furniture series Resistance

Simple outdoor furniture series made of lightweight aluminum with gray powder coating and plastic panels in teak look. UV and weather resistant. The plastic strips used in teak look are easy to clean. The furniture series consists of: Bench, chair with or without armrests, small and large dining table, bar table and bar stool. Suitable for outdoor use.

Note: The outdoor tables with plastic tops in wood look have many advantages over tables with wooden table tops. However, there are some points to consider when using these tables: Glasses or other objects made of glass, such as ashtrays or vases, can cause a burning glass effect (magnifying glass effect) when exposed to direct sunlight, which can cause damage to the surface.

Frying pan Aronus

Heavy, high-quality frying pan made from carbon steel.
In a Lyonnaise design with a robust steel thickness of 2.5 to 3 mm. With a sturdy riveted flat handle and additional handle on the opposite side, from a diameter of 32 cm. Optimal heat conduction and dissipation allows very high temperatures to be reached, which is ideal for sauteing, grilling and browning. Dishes remain tender and juicy on the inside, but crispy on the outside. Allows flavors to develop while preserving vitamins and nutrients. Suitable for all types of hobs. The pan must be seasoned before using for the first time. The pan increasingly gains patina as it is used over time, which boosts its natural non-stick properties. This protection ensures a long service life. Not suitable for dishwasher.
